Basel-Landschaft / canton overview

Separate one-page market paper / BS and BL only / 4 November 2026

Basel-Landschaft combines Bachgraben research and headquarters with industrial production corridors and smaller municipal address clusters. Building, occupier and future-delivery records are kept separate; an announced project is not occupied supply.

39	54	51
Occupier inventory rows	Campus / building rows	Matched postal references

© swisstopo (SWISSIMAGE). Acquired date unconfirmed; retrieved 4 Nov 2026. Grey dots are official postal references, not verified tenancy. Codes match the district list; extent covers documented addresses, not the entire canton.

Occupancy and property due diligence

Lease terms, rent, occupied area and local staff remain Unknown unless disclosed for the named site. Park size is not vacant or tenant-occupied lab area.

> Coverage is every documented address encountered in the stated sources, plus retained source-safe baseline records. It is not an exhaustive canton census. Company address points verify postal position, not an occupied suite. Campus-residency references remain a separate layer.

Documented submarkets

01 Allschwil / Bachgraben / Main Campus

Established operating laboratory, research, office and life-science equipment-production district in Basel-Landschaft. See the full submarket section.

Allschwil · [188] [189] [204]

02 Muttenz / Schweizerhalle / Pratteln manufacturing corridor

Established specialist chemical/API and RNA manufacturing, analytical services and laboratory automation coexist with institutional teaching/pilot facilities and a separate pharmaceutical headquarters office location. See the full submarket section.

Muttenz, Pratteln · [282] [274] [279]

03 Bubendorf / Bachem and CARBOGEN AMCIS manufacturing satellite

Established active headquarters and specialized GMP manufacturing at two independently supported company-site addresses. See the full submarket section.

Bubendorf · [217] [215] [214]

04 Reinach / Aesch / Therwil southern life-science corridor

Established analytical and bioanalytical laboratory occupancy in Reinach, oral-solid pharmaceutical packaging and warehousing in Aesch, and respiratory medical-device manufacturing in Therwil. See the full submarket section.

Reinach, Aesch, Therwil · [289] [300] [303]

05 Liestal / Sissach eastern Basel-Landschaft corridor

Dispersed current life-science and scientific-instrument presence is established in Liestal: an API/intermediates manufacturing facility, a specialty-pharmaceutical business address and an AFM-instrument headquarters, with a separate hospital / see the full submarket section.

Liestal, Lausen, Itingen, Sissach · [231] [232] [233]

06 Schönenbuch diagnostics facilities

BÜHLMANN publishes a current facilities address at Baselstrasse 55. This is a separate diagnostics location, not an Allschwil campus tenant or a verified new-space event. Lease-level details and local employment remain unknown.

Schönenbuch · [311] [312] [313]

Basel-Landschaft / occupancy and property read

Basel-Landschaft

Allschwil / Bachgraben / Main Campus

Established operating laboratory, research, office and life-science equipment-production district in Basel-Landschaft. Main Campus HQ and HORTUS are existing facilities; ALL is a construction/delivery pipeline offer for January 2027, HOPE is under construction for 2028 occupancy, and SCALE is a planned 2030 build-to-suit opportunity.

[188] [189] [204] [202]

Bubendorf / Bachem and CARBOGEN AMCIS manufacturing satellite

Established active headquarters and specialized GMP manufacturing at two independently supported company-site addresses. Bachem Building K is operating and manufacturing commercial GMP products in 2026, with further capacity expansion/ramp-up still ongoing.

[217] [215] [214] [219]

Liestal / Sissach eastern Basel-Landschaft corridor

Dispersed current life-science and scientific-instrument presence is established in Liestal: an API/intermediates manufacturing facility, a specialty-pharmaceutical business address and an AFM-instrument headquarters, with a separate hospital clinical-research anchor. CordenPharma's Liestal renovation is a dated existing-facility upgrade, not quantified new leasing demand.

[231] [232] [233] [234]

Muttenz / Schweizerhalle / Pratteln manufacturing corridor

Established specialist chemical/API and RNA manufacturing, analytical services and laboratory automation coexist with institutional teaching/pilot facilities and a separate pharmaceutical headquarters office location. Current primary sources establish operations, not a corridor-wide take/hold/giveback forecast.

[282] [274] [279] [278]

Reinach / Aesch / Therwil southern life-science corridor

Established analytical and bioanalytical laboratory occupancy in Reinach, oral-solid pharmaceutical packaging and warehousing in Aesch, and respiratory medical-device manufacturing in Therwil. TechCenter Reinach and iCITY Reinach have separate current operator offers; neither campus marketing nor an advertised room establishes a company lease or regional vacancy.

[289] [300] [303] [304]

Schönenbuch diagnostics facilities

BÜHLMANN publishes a current facilities address at Baselstrasse 55. This is a separate diagnostics location, not an Allschwil campus tenant or a verified new-space event. Lease-level details and local employment remain unknown.

[311] [312] [313]

This core book retains the finite company/address, building/property and dated-action schedules. Complete source fields, measurement bases, historical observations, residency directories and gap leads remain in the full CSV/JSON companion. Inventory rows are not unique companies or an exhaustive canton census. Current offers do not prove vacant possession; planned and deferred supply is not occupation.

Basel-Landschaft / complete company and institution address inventory

Basel-Landschaft

Company / institution	Published address / reference	Function / evidence status	Source IDs
Alentis Therapeutics AG	Hegenheimermattweg 167A, 4123 Allschwil, Switzerland Official postal point; not suite	Company headquarters/contact; anti-Claudin-1 antibody and ADC development. Operator testimonial specifically supports use of private labs, not just corporate residency. Current reference; suite unverified	[171] [203]
Basilea Pharmaceutica International Ltd, Allschwil	Hegenheimermattweg 167b, 4123 Allschwil, Switzerland Official postal point; not suite	Anti-infectives company headquarters with dedicated R&D laboratories, offices and supporting corporate functions; the August 2026 operator interview describes the working site and a historical move from two Basel locations in 2022. Current reference; suite unverified	[175] [176]
Bright Peak Therapeutics	Hegenheimermattweg 167D, 4123 Allschwil, Switzerland Official postal point; not suite	Swiss biotechnology R&D presence for protein-engineered multifunctional immunotherapies; company describes co-location in Basel/Allschwil and San Diego. Current reference; suite unverified	[181] [180] [202]
Idorsia Pharmaceuticals Ltd	Hegenheimermattweg 91, 4123 Allschwil, Switzerland Official postal point; not suite	Headquarters responsible for drug discovery, development, registration, production oversight, quality assurance, safety, management and coordination. Responsibility for production is not proof of an on-site commercial manufacturing plant. Historical source / measurement	[185] [186] [187]
SKAN AG / SKAN Group AG	Kreuzstrasse 5, 4123 Allschwil, Switzerland Official postal point; not suite	Headquarters with two production halls for isolator and small-scale filling-system equipment, R&D, Digital Solutions, biological-indicator/analytical laboratories, lifecycle support and training. This is life-science equipment production, not substantiated pharmaceutical drug manufacturing capacity. Current reference; suite unverified	[207] [206] [169]

Basel-Landschaft / complete company and institution address inventory

Basel-Landschaft

Company / institution	Published address / reference	Function / evidence status	Source IDs
T3 Pharmaceuticals AG	Hegenheimermattweg 167A, 4123 Allschwil, Switzerland Official postal point; not suite	Laboratory R&D and live-bacteria cancer-therapy development. The September 2025 operator account supports furnished/custom lab use and describes manufacturing activity, without commercial/GMP capacity evidence. Current reference; suite unverified	[211] [210] [208] [209]
Becton Dickinson AG	Rudolf Geigy-Strasse 3, 4123 Allschwil, Switzerland Official postal point; not suite	Swiss BD base/office and customer-support contact. The operator records a HORTUS opening in June 2025; local laboratory production and manufacturing functions are not established. Completed / attributed evidence	[177] [178] [184]
Alloy Therapeutics	No company street address established Unlocated; no fallback pin	Biotechnology ecosystem/tools company; exact local laboratory, office and operating scope remains unknown. unknown operator_residency_reference_only unknown	[202]
Neurocrine Biosciences	No company street address established Unlocated; no fallback pin	Resident association; no verified local functional scope or company suite. unknown operator_residency_reference_only unknown	[202] [169]

Basel-Landschaft / complete company and institution address inventory

Basel-Landschaft

Company / institution	Published address / reference	Function / evidence status	Source IDs
Viatris / Viatris Innovation GmbH legal-entity lead	No company street address established Unlocated; no fallback pin	HORTUS tenant label; company-specific Allschwil R&D, clinical-development and office responsibilities remain unverified. Current reference; suite unverified	[184] [204]
Johnson & Johnson / Basel Campus / Main Campus HQ association	No company street address established Unlocated; no fallback pin	J&J company page describes Basel Campus clinical development, supply-chain, quality, digital/data and local/regional/global support roles spanning Innovative Medicine and MedTech. It does not allocate those roles to a precise Main Campus suite. Operator independently identifies J&J in HQ. unknown company_campus_function_and_operator_residency; street_suite_unverified unknown	[190] [204] [202]
Orbis Medicines	No company street address established Unlocated; no fallback pin	Operator directory residency conflicts with company-stated Copenhagen and Lausanne locations. Conflicting evidence; reconfirm	[202] [193] [192]
Abbott Products Operations AG / additional district lead	No company street address established Unlocated; no fallback pin	Abbott is identified in the live district map and supplied internal schematic; exact Allschwil building functions remain unverified in the successfully extracted primary pages. unknown district_lead_only; primary_street_address_extraction_unresolved unknown	[204] [189] [167] [168]
Switzerland Innovation Park Basel Area AG	Hegenheimermattweg 167A, 4123 Allschwil, Switzerland Official postal point; not suite	Operates ready-made laboratories, private offices, coworking and community services; operator contact is a campus orientation reference, not every resident's suite. Current reference; suite unverified	[202] [203]
University of Basel / Department of Biomedical Engineering	Hegenheimermattweg 167B, 4123 Allschwil, Switzerland Official postal point; not suite	Biomedical engineering research/education. Institution identifies physical entrance at second-floor Core C and study area at second-floor Core B, separate from the postal address. Current reference; suite unverified	[183] [204]
University of Basel / Department of Biomedical Engineering	Hegenheimermattweg 167C, 4123 Allschwil, Switzerland Official postal point; not suite	Biomedical engineering research/education. Institution identifies physical entrance at second-floor Core C and study area at second-floor Core B, separate from the postal address. Current reference; suite unverified	[183] [204]
Swiss Tropical and Public Health Institute / Swiss TPH	Kreuzstrasse 2, 4123 Allschwil, Switzerland Official postal point; not suite	Public-health research, education and diagnostic expertise. Allschwil address is separately documented; travel medicine at Aeschenplatz 2, Basel, is outside this cluster. Do not collapse current HQ into future HOPE occupancy. Planned / not occupied supply	[212] [213] [197]

Source IDs [171] [203] [175] [176] [181] [180] [202] [185] [186] [187] [207] [206] [169] [211] [210] [208] [209] [177] [178] [184] [204] [190] [193] [192] [189] [167] [168] [183] [212] [213] [197] · Source index

Basel-Landschaft / complete company and institution address inventory

Basel-Landschaft

Company / institution	Published address / reference	Function / evidence status	Source IDs
Botnar Institute of Immune Engineering / BIIE	No company street address established Unlocated; no fallback pin	Immune-engineering institute; developer says the top three floors of ALL are let to BIIE. Current institute contact remains c/o ETH D-BSSE, Klingelbergstrasse 48, 4056 Basel, BS, with delivery to Schanzenstrasse 44; it is not current physical Allschwil occupancy. Planned / not occupied supply	[179] [172] [196]
University of Basel Innovation Office / Innovation Garage; CSEM; University Hospital Basel skills/simulation reference	No company street address established Unlocated; no fallback pin	Institution/technology-transfer/research-service leads explicitly encountered in operator material and internal tenant list. Current reference; suite unverified	[204] [202] [188]
Thermo Fisher supply center	No company street address established Unlocated; no fallback pin	Operator private-lab page describes a consumables supply center. This does not establish a standalone Thermo Fisher company office, manufacturing plant or new lease. operator_reported_lab_service_at_main_campus; not_a_separate_verified_plant unknown unknown	[205]
Primopus AG / Basel multipurpose API plant	GETEC PARK SWISS – OST WSH 2063, Rheinfelderstrasse (Schweizerhalle), 4133 Pratteln, Switzerland Unlocated; no fallback pin	Current company-disclosed multipurpose API plant supplying GMP intermediates and APIs; acquired plant from Novartis. Closed material handling, hydrogenation, chlorination and bromination are stated. Company reports modernization including DCS automation and digital GMP documentation; publication date and completion milestone are not stated. Current reference; suite unverified	[279] [278] [282]
Novartis Pharma Schweizerhalle AG	Rheinfelderstrasse, CH-4133 Schweizerhalle, Switzerland Unlocated; no fallback pin	Current chemical launch and production site making small-batch innovative compounds and intermediates, with analytical testing and release to the manufacturing network; RNA oligonucleotide production facility established in 2022. Not a finished-dose plant by inference. unknown primary site page observed 2026-11-04 and company country factsheet with site data as of 2025-12-31 unknown	[276] [275] [277] [282]

Basel-Landschaft / complete company and institution address inventory

Basel-Landschaft

Company / institution	Published address / reference	Function / evidence status	Source IDs
CABB AG / Pratteln manufacturing site	Düngerstrasse 81, 4133 Pratteln, Switzerland Unlocated; no fallback pin	Current manufacturing site in a fine-chemistry CDMO group serving pharma, life sciences and crop science. April 2026 brochure attributes chlorine and sulfur reagent production and pipeline-fed chlorination/sulfonation to its Swiss Verbund; specialty life-science offering includes key raw materials, process aids and non-GMP intermediates. Do not label the entire Pratteln plant a GMP API facility or import group-wide reactor capacity. Current reference; suite unverified	[260] [259]
accroma labtec Ltd. / Swiss headquarters	Rothausstrasse 61, CH-4132 Muttenz, Switzerland Unlocated; no fallback pin	Laboratory automation company developing quality-control sample, buffer and mobile-phase preparation systems; company states its home is GETEC Industry Park and products undergo final production/testing in Switzerland. This establishes a tools/engineering occupier, not a GMP drug manufacturing plant. Current reference; suite unverified	[255]
GETEC PARK.SWISS AG / Analytik Service	Bau 914, Rothausstrasse 61, 4132 Muttenz 1, Switzerland Unlocated; no fallback pin	Current park analytical-service laboratory serving on-site and external customers, including method development/validation, trace analysis, purity testing and physicochemical characterization. Current reference; suite unverified	[271] [270]
GETEC PARK.MUTTENZ / park infrastructure operator	Gate 3, Building 847, Auhafenstrasse, 4132 Muttenz, Switzerland Unlocated; no fallback pin	Current integrated industrial-park infrastructure, energy/utilities, chemical and biological wastewater treatment, solvent regeneration, facility services and logistics operator. Address is delivery gate, not a tenant office or whole-campus boundary. Current reference; suite unverified	[272] [273]

CordenPharma Muttenz deferral reported muttenz-pratteln	reported_company_confirmation_via_srf_not_direct_primary_release unknown unknown 2026-04-28	SRF says company spokeswoman confirmed project put back after strategic review; mayor interviewed on disappointment. No restart date, alternative occupier or released parcel availability established. Tariffs are reported as a possible factor, not an established sole cause.	[266]
Primopus plant modernization muttenz-pratteln	ongoing_company_web_statement_undated unknown unknown Undated / observed 2026-11-04	DCS/digital GMP upgrade is disclosed; no 2025/2026 floor-area expansion, external lease action or commissioning milestone can be inferred.	[279]
GETEC open plots muttenz-pratteln	Historical source / measurement Undated / observed 2026-11-04	Not a current land offer, and not a tenant vacancy figure. approximately 14 ha	[269]
Ceres Tower office 06.01 muttenz-pratteln	Advertised offer; vacancy unverified Undated / observed 2026-11-04	Listing linked to plan uploaded July 2024; upload date is not current availability confirmation. Not laboratory space by inference. 114.0 m2; 280 CHF/m2/year	[263]
Ceres Tower office 06.03 muttenz-pratteln	Advertised offer; vacancy unverified Undated / observed 2026-11-04	Listing linked to plan uploaded August 2022; no current physical inspection or date-specific landlord confirmation. 113.4 m2; 280 CHF/m2/year	[263]
Ceres Tower office 07.01 muttenz-pratteln	Advertised offer; vacancy unverified Undated / observed 2026-11-04	Listing linked to plan uploaded March 2024; no confirmed commencement or availability date. 256.5 m2; 280 CHF/m2/year	[263]
CARBOGEN AMCIS Hauptstrasse 145 property, Bubendorf bubendorf	Historical source / measurement 2016-05-31	Reported purchase agreement signed 2016-05-26 for GEA Pharma Systems AG land/buildings, effective 2017-01-01; adaptations and expansion of operations into the building were planned for 2017.	[221]
CARBOGEN AMCIS Bubendorf extension; numbered building not identified bubendorf	Historical source / measurement 2021-04-29	Joint-funded extension adjacent to existing manufacturing facility for highly potent commercial ADC component production; planning underway and autumn 2022 operations expected. No current commissioning evidence established.	[218]
CARBOGEN AMCIS Hauptstrasse 175 property, Bubendorf bubendorf	Historical source / measurement 2021-06-24	Announced neighbouring property purchase from Marcel and Theres Rutschmann, with full rights intended from 2022-04-01. RCB GmbH was to continue normal business pending handover and expansion planning.	[222]

Basel-Landschaft / dated pipeline and availability inventory

Basel-Landschaft

Project / dated action	Phase / source period	Disclosed action or offer	Source IDs
CARBOGEN AMCIS Aarau and Neuland/Hunzenschwil, Aargau / excluded from BL pipeline bubendorf	Historical source / measurement 2025-06-04	New co-investment concerns Aarau and Neuland, despite a Bubendorf press dateline. It references the earlier 2021 Bubendorf extension agreement but establishes no new 2025 Bubendorf building delivery or available area.	[220]
First phase of Bachem Building K, Bubendorf bubendorf	successful_regulatory_inspection; production_ramp_up_was_forward_looking_at_fy2025 unknown unknown 2025-12	FY2025 annual report records successful RHI inspection of the first phase in December 2025. At the report date commercial production ramp-up was planned for 2026.	[214]
Bachem Building K, Bubendorf bubendorf	inauguration_reported unknown unknown 2026-04-24	Bachem inaugurated Building K as an industrial-scale manufacturing facility. Inauguration alone is not the basis for the commercial-production conclusion; the later July filing confirms that separately.	[216]
Bachem Building K, Bubendorf bubendorf	operating_commercial_gmp; further_expansion_ongoing unknown unknown 2026-07-30	Primary half-year announcement states that Building K was successfully put into operation in 2026 and commercial GMP products were already being manufactured; facility is gradually expanded for additional capacity. No full-ramp-up completion date or area stated.	[215]
Bachem Sisslerfeld, Eiken, Aargau / excluded from BL inventory bubendorf	Planned / not occupied supply 2026-07-30	Same release describes Sisslerfeld separately as planned large-volume manufacturing with expected production by 2030. It is not Building K and is not counted as BL occupied or pipeline area.	[215]
Bachem corporate financial calendar; not a facility delivery date bubendorf	Planned / not occupied supply 2026-11-26	Capital Markets Day scheduled after the research cutoff; check the resulting disclosures for Building K phase timing, without treating the event date as delivery.	[215]
Source-linked action bubendorf	Current reference; suite unverified Undated / observed 2026-11-04	Operating production capacity and a corporate property acquisition are not market availability. No property is represented as vacant, offered to lease, committed to a third-party tenant or deliverable on a sourced letting date. Unknown is not zero.	[217] [215] [219] [221] [222]
TechCenter Reinach existing development reinach-aesch-therwil	Historical source / measurement 2010	Current operator states designed and built in 2010	[300]
