North Carolina research and manufacturing corridors

OCCUPANCY READ Known actions include a Durham opening, a Morrisville manufacturing lease, and construction or expansion plans in Durham, Holly Springs and Wilson. These differ in delivery status; announced capacity and investment do not establish occupied floor-area growth.

C = company callout; A = analytical family (including Others). Full retained record IDs shown. Company-name hyperlinks open company websites, not Atlas profiles; find company details by ID in the companion working/offline site. No published profile URL is approved.

Primary-area comparison / physical-site evidence

Top 8 + Others preserve totals. Baseline companies assigned once; research observations may repeat entities/sites or overlap the baseline.

Base = selected profiles; Res. obs. = company/site research records with possible entity overlap. Operating = current supported site records; precise = address matches, not tenancy proof. Typed plan leads cover structured site records only; zero is not absence of planning actions. Priority is record-based analyst assumption, not lease credit; U = unscored.

Cash period ends: 2026-06-28 to 2026-09-30. Exact global cash/equivalents; stale/unknown = n/a, not zero. Not local capital, demand, guaranty or lease credit. Cross-hub cash is not additive.
